

## For Professionals

The Your Golf DNA team offer industry professionals from golf and the medical profession a chance to utilise the team's knowledge and technology to help support and enhance their business.

This is done by the team visiting your facility and putting on a development camp with you.

The benefits to you are:

- You 'earn while you learn'
- You enhance your reputation in the area
- You offer your clientele a better service
- You gain a better understanding of why your client moves and performs in the manner that they do
- You gain greater client retention
- You gain more material to work with
- You differentiate yourself from your local competition
