Find your Movement DNA Experience Days

You will spend three of the most enlightening and thought provoking hours you will ever experience when you join us at one of our one day camps.

The day involves moving around three stations, each lasting 90 minutes in duration. This unforgettable experience entails:

- *A 3D Motion Analysis*
- *A musuloskeletal screening from our physiotherapist*
- *A biofeedback session*

“What is the purpose of this experience and how will it benefit my golf?”

- *You will uncover the truth behind why you move in the manner that you do and subsequently why you deliver the club in the manner that you do*
- *You will discover how you can hit the ball further and become more efficient*
- *If you experience pain you will leave with answers as to why*
- *You will leave knowing whether your movement is concept driven or as a result of physical restriction*

Find your Short Game DNA Experience Days

You will spend three of the most enlightening and thought provoking hours you will ever experience when you join us at one of our one day camps.

The day involves moving around four stations, each lasting an hour in duration. This unforgettable experience entails:

- *An evaluation of your putting stroke with our putting expert utilising cutting edge technologies*
- *An evaluation of your current movement strategies regarding pitching, chipping and bunker play. Looking in depth at how your body geometry and concepts effect club delivery patterns*
- *Radar data on your pitching strategy and club delivery pattern*

“What is the purpose of this experience and how will it benefit my golf?”

- *You will uncover the truth behind why you move in the manner that you do and subsequently why you deliver the club in the manner that you do*
- *You will discover why you hit poor shots*
